PRACTITIONER PROGRAM

INTEGRATION OF THE BODY SYSTEMS AND DEVELOPMENTAL MOVEMENT I

Just as there is a developmental progression through the Basic Neurocellular Patterns, there is a developmental progression through the body systems as well. As we progress through the BNP, each pattern manifests affinities for different aspects of the body systems. These affinities underlie changes of consciousness in our tissues, in our movement, in our perceptions and in our interpersonal relationships.

This course includes:

- Personal expression of the interrelationships between your body systems and developmental process.
- Awareness of how others express their body systems through their developmental process.
- Gaining greater proficiency in facilitating these interrelationships in others.
- Deepening touch and repatterning skills through the integration of the body systems and development.

Prerequisites: Completion of Somatic Movement Education Program

Minimum course length: 7 days, 49 class hours

Price: 890 € (840 € if full tuition is paid earlier than two months from the beginning of the course)

Dates: March 27 - April 3, 2024
